

Additional Environmental Partnerships

USCAP – the United States Climate Action Partnership

USCAP is a unique coalition of U.S.-based corporations and environmental, non-profit organizations that speak with one voice for good federal policy on climate change. Together, we are asking government policy makers to create a mandatory, market-driven approach to climate protection. Through USCAP, we are advocating for the enactment of climate legislation that is environmentally effective, economically sustainable, fair to all economic sectors, geographic regions and stakeholders, and that creates incentives for technology innovation. Our recommendations include a national cap-and-trade system that is linked to an international carbon offset market.

Carbon Disclosure Project – Johnson & Johnson reports its carbon emissions to this organization that aims to create a lasting relationship between shareholders and corporations regarding the implications for shareholder value and commercial operations presented by climate change. See our report at <http://www.cdproject.net>.

Climate Savers – Johnson & Johnson was a charter member of this World Wildlife Fund partnership that aims to mobilize companies to cut carbon dioxide. Climate Savers companies (<http://www.worldwildlife.org/climate/projects/climatesavers/companies.cfm>) establish ambitious targets to reduce their greenhouse gas emissions voluntarily.

The Climate Group – Johnson & Johnson was a charter member of this organization that is dedicated to advancing business and government leadership on climate change. http://theclimategroup.org/index.php/about_us

Green Power Partnership, U.S. Environmental Protection Agency – The Green Power Partnership (<http://www.epa.gov/grnpower>) is a voluntary program that encourages organizations to buy green power as a way to reduce the environmental impacts associated with purchased electricity use. As of January 2008, Johnson & Johnson was the 7th largest national user of green power.

The Wilderness Society – The Wilderness Society (<http://www.wilderness.org>) works to protect and conserve the U.S. wilderness through a combination of science, advocacy and education.

[The Trust for Public Land \(TPL\)](#) -- Johnson & Johnson supports this U.S. conservation organization. The TPL (<http://www.tpl.org>) works to conserve land for people to enjoy as parks, community gardens, historic sites, rural lands, and other natural places, ensuring livable communities for generations to come.
