

OUR 2030 PROMISE

A giant leap towards a world where a healthy mind, body, and environment is within reach for everyone, everywhere.

We live in a world where possibilities for human connectivity are all around us, and increasing day by day. To bring good health to all, we need to make the right connections, one human at a time.

Johnson & Johnson is a family of 127,000 people, in more than 60 countries, who believe in that vision. We are researchers, inventors, doctors, teachers, sisters, tios and tias, mentors and volunteers. Together, we are signing up to the 2030 UN Sustainable Development Goals—the world's road map for progress. We invite you to learn more, and join us.

Let's unite our knowledge, people and relationships to ignite ideas, mobilize minds and move hearts. Together we will forge a healthier and more equitable future. Because—for one human and all humankind—good health changes everything.

OUR VISION FOR 2030

By galvanizing partners, mobilizing employees and engaging communities, we will profoundly improve the course of human health.

Johnson & Johnson dedicates our expertise, ideas and ingenuity to ignite partnerships and catalyze efforts in five areas where we are uniquely positioned to create sustainable and scalable impact:

Environmental Health

Our aspiration: A world where all people have healthy places to live, work and play.

Our 5-year target: 100 million* citizens living across 30 cities will have benefited from climate and air quality actions that have the potential to positively impact public health.

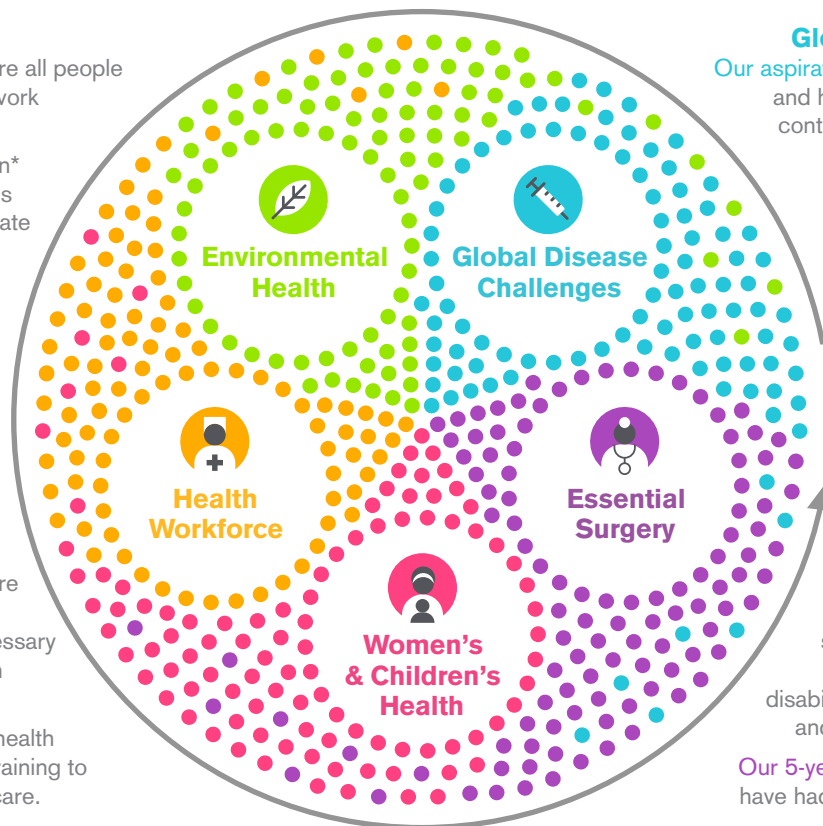

Health Workforce

Our aspiration: A world where the current and future health care workforce has the necessary competencies to deliver high quality health care.

Our 5-year target: 650,000 health workers will have received training to better deliver quality health care.

*potential figure to be revised once cities and actions are confirmed

Global Disease Challenges

Our aspiration: A world where innovations and holistic health solutions prevent, control and eliminate global disease challenges and epidemics.

Our 5-year target: 175 million individuals will have benefited from J&J solutions that prevent, control and eliminate global diseases.

SDG 3
SDG 5
SDG 17

Essential Surgery

Our aspiration: A world where safe, essential and timely surgical care can be accessed by all to save lives, prevent disability, promote economic growth, and reduce social marginalization.

Our 5-year target: 50 million people will have had access to safe, essential, and timely surgical care.

Women's & Children's Health

Our aspiration: A world where every woman and child survives and has the opportunity for a healthy future.

Our 5-year target: 60 million women and children will have received support and tools to enable a healthy future.
