OUR 2030 PROMISE

A giant leap towards a world where a healthy mind, body, and environment is within reach for everyone, everywhere.

We live in a world where possibilities for human connectivity are all around us, and increasing day by day. To bring good health to all, we need to make the right connections, one human at a time.

Johnson & Johnson is a family of 130,000 people, in more than 60 countries, who believe in that vision. We are researchers, inventors, doctors, teachers, sisters, tios and tias, mentors and volunteers. Together, we are signing up to the 2030 UN Sustainable Development Goals—the world's road map for progress. We invite you to learn more, and join us.

Let's unite our knowledge, people and relationships to ignite ideas, mobilize minds and move hearts. Together we will forge a healthier and more equitable future. Because—for one human and all humankind—good health changes everything.

OUR VISION FOR 2030

By galvanizing partners, mobilizing employees and engaging communities, we will profoundly improve the course of human health.

We dedicate our expertise, ideas and ingenuity to ignite partnerships and catalyze efforts in five areas where Johnson & Johnson is uniquely positioned to create sustainable and scalable impact:

Women's & Children's Health

Our aspiration: A world where every woman and child survives and has the opportunity for a healthy future.

Our 5-year target: 60 million women and children will have received support and tools to enable a healthy future.
